Independent Auditor's Report

RSM US LLP

To the Honorable President and
Board of Trustees
Village of South Holland, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of South Holland, Illinois (Village), as of and for the year ended April 30, 2018, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of South Holland, Illinois, as of April 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, pension and OPEB related information and budgetary comparison information and related notes on pages 3-13 and 74-82 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The supplementary information (on pages 83-88) is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Basic Financial Statements

Management's Discussion and Analysis

The management of the Village of South Holland, Illinois (the Village) is providing this overview and analysis of the financial activities of the Village for fiscal year ended April 30, 2018. Please read it in conjunction with the Financial Statements in this report.

Financial Highlights

The assets and deferred outflows of resources of the Village exceeded its liabilities and deferred inflows of resources at the close of fiscal year 2018 by \$48,262,056 and fiscal year 2017 by \$47,277,080. Total payments made on bonded debt of the Village totaled \$1,930,000 during the fiscal year. At the end of the current fiscal year, unassigned fund balance for the general fund was \$5,948,017 or 26.9 percent of total general fund expenditures, whereas at the end of fiscal year 2017, unassigned fund balance for the general fund was \$4,696,914 or 21.6 percent of total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to be an introduction to the Village's basic financial statements. The basic financial statements are comprised of three components: government-wide financial statements, fund financial statements and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements provide a broad overview of the Village's finances in a manner similar to a private-sector business. The government's current financial resources are combined and consolidated with capital assets and long-term obligations using the accrual basis of accounting.

The government-wide financial statements include the financial activities of the Village and the Village's component unit.

The statement of net position presents information on all of the Village's assets, deferred inflows of resources, liabilities and deferred outflows of resources, with the remaining difference between the categories reported as net position. Over time, the increase or decrease in net position may be a useful indicator of whether the Village's financial position is improving or deteriorating.

The statement of activities presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported as soon as they occur, regardless of the timing of cash flow. Therefore, revenues and expenses are reported for some items that will result in cash flows in future fiscal periods. The costs of various governmental services and any subsidy to business activities are presented.

Both of these government-wide financial statements distinguish the functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or most of their costs through user fees and charges (business-type activities). The Village's governmental activities include general government, public works, public safety, and the garbage department. Property, sales, utility and income taxes pay for most of those activities. The Village's business-type activities include water operations.

Village of South Holland, Illinois Management's Discussion and Analysis

Fund financial statements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. The Village funds are divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental fund statements is narrower than that of the government-wide financial statements, it may be useful to compare similar information to better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Village maintains 25 individual governmental funds. Information is presented separately in the governmental fund statement of revenues, expenditures and changes in fund balances for three major funds: General Fund, Park Fund and Interstate 80 TIF Fund. Data from the other 22 governmental funds are combined into a single, aggregated presentation.

The Village adopts an annual appropriated budget for its general, debt service and certain special revenue funds. A budgetary comparison statement has been provided where appropriate to demonstrate compliance with this budget.

One type of proprietary fund is an enterprise fund. The Village maintains one enterprise fund to report the same functions presented as business-type activities in the government-wide financial statements, only in more detail. The function is water operations. Water operations are considered to be a major fund of the Village.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village's pension and postemployment benefit information and its compliance to the General Fund budget.

Total liabilities	<u>45,554,244</u>	<u>3,540,940</u>	<u>49,095,184</u>
Deferred inflows of resources	<u>16,920,310</u>	<u>442,484</u>	<u>17,362,794</u>
Net position:			
Net investment in capital assets	55,741,719	6,174,534	61,916,253
Restricted	9,580,398	-	9,580,398
Unrestricted (deficit)	(24,649,365)	1,414,770	(23,234,595)
Total net position	<u>\$ 40,672,752</u>	<u>\$ 7,589,304</u>	<u>\$ 48,262,056</u>

**Village of South Holland, Illinois
Management's Discussion and Analysis**

April 30, 2017

	Governmental Activities	Business-Type Activities	Total Primary Government
Current and other assets	\$ 26,244,936	\$ 1,359,671	\$ 27,604,607
Capital assets	72,285,155	9,385,436	81,670,591
Total assets	<u>98,530,091</u>	<u>10,745,107</u>	<u>109,275,198</u>
Deferred outflows of resources	<u>5,946,560</u>	<u>268,838</u>	<u>6,215,398</u>
Current liabilities	3,458,530	664,878	4,123,408
Long-term liabilities	46,501,207	3,527,217	50,028,424
Total liabilities	<u>49,959,737</u>	<u>4,192,095</u>	<u>54,151,832</u>
Deferred inflows of resources	<u>14,061,684</u>	-	<u>14,061,684</u>
Net position:			
Net investment in capital assets	55,873,574	6,370,179	62,243,753
Restricted	8,988,963	-	8,988,963
Unrestricted (deficit)	<u>(24,407,307)</u>	<u>451,671</u>	<u>(23,955,636)</u>
Total net position	<u>\$ 40,455,230</u>	<u>\$ 6,821,850</u>	<u>\$ 47,277,080</u>

The majority of the Village's net position is invested in capital assets that are used to provide services to the citizens of the Village. Although they are reported net of debt, it should be noted that the resources needed to repay any debt must be provided from other sources since they cannot be liquidated to repay liabilities. Restricted net position of the Village, which is only authorized to be spent for specific purposes as defined in the notes to the financial statements, was \$9,850,398 at April 30, 2018. This unrestricted net position was a deficit of \$23,504,596 at April 30, 2018.

Of the \$15,168,779 listed as Governmental Activities Long-Term Debt, \$9,595,000 is debt issued pursuant to the Village's seven tax incremental financing districts. This debt is scheduled to be fully retired by 2033 and is currently being funded by the incremental taxes generated by the districts. Tax increment financing tax revenues are expected to fully pay for the \$9,595,000 in principal payments and no general fund or other resources are expected to pay for these obligations.

The following tables are the condensed Statement of Activities for the Village for the fiscal years ended April 30, 2018 and 2017.

**Village of South Holland, Illinois
Management's Discussion and Analysis**

The following chart summarizes how the Village's governmental activities are funded.

Approximately 71 percent of governmental activities are funded primarily by property tax and sales and other taxes. The Village has home rule authority to raise property taxes without the effects of property tax caps. The Village undertakes a rigorous budget process to minimize the necessity for unusual tax increases. The Village has continued to improve the level of services provided to residents by continuing to adhere to its prescribed fiscal controls. Each year this becomes more challenging.

**Village of South Holland, Illinois
Management's Discussion and Analysis**

The following chart reflects the Village's governmental activities expenses by function, along with the percentage that each function is funded by program revenues. General revenues, including property and other taxes and investment income, are used to fund the Village's functions as program revenues alone are not sufficient.

Business-type activities are to be funded through charges for related services. This year, water operations resulted in revenues of \$796,776 greater than its expenses, while the fiscal year 2017 water operations resulted in revenues of \$917,689 greater than its expenses.

Financial Analysis of the Village's Funds

Governmental funds provide information on near term inflows, outflows and balances of spendable resources. Unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year. At the end of the current fiscal year, the Village's governmental funds reported combined ending fund balances of \$14,723,838, while governmental fund balances were \$12,818,149 at the end of fiscal year 2017.

Proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the water fund was \$1,414,770 at April 30, 2018 and \$451,671 at April 30, 2017.

Village of South Holland, Illinois Management's Discussion and Analysis

General Fund Budgetary Highlights

No amendments were made to the original budget. The general fund balance increased by \$1,251,632 in fiscal year 2018 and increased by \$1,364,933 in fiscal year 2017.

During 2018, actual general fund revenues were less than budgeted revenues by \$666,651. The Village was not awarded several grants and property tax appeal refunds resulted in lower grant funding and property tax revenue than budgeted.

Actual general fund expenditures were less than budgeted expenditures by \$2,789,783. The Village has a rigorous budget and oversight structure which resulted in holding expenditures to below budgeted numbers. The Village's actual expenditures were also lower than budget as the Village was not awarded grants for which they applied thus the anticipated expenditures were not incurred.

Capital Asset and Debt Administration

The Village's investment in capital assets for its governmental and business-type activities as of April 30, 2018 and 2017 amounts to \$79,320,324 and \$81,670,591, net of accumulated depreciation, respectively. This investment in capital assets includes land and improvements, buildings and improvements, machinery and equipment, streets, sidewalks, storm sewers, manholes, hydrants, valves, streetlights and the water distribution system. Prior to fiscal year 2004, the Village's infrastructure (roads, bridges, storm sewers, water mains) had not been reported or depreciated in governmental financial statements. These assets have now been valued and reported in the government-wide financial statements. The Village has elected to depreciate these assets over their estimated useful lives.

At the end of the current year, the Village had total general obligation bond debt of \$4,240,000, tax incremental financing bond debt of \$9,595,000 and general obligation capital appreciation bonds of \$1,012,532. General obligation bonds within governmental activities decreased by \$1,930,000 relating to principal repayments, offset by an increase for additional accreted interest on the capital appreciation bonds of \$64,340. Total business-type debt decreased by a net total of \$177,454 as principal payments were made on the IEPA loan during the year.

Economic Factors and Next Year's Budget

The Village continues to actively pursue economic development opportunities and has a Director of Economic Development to promote development in the Village. The Village has seen some renewed interest in redevelopment of its tax increment financing districts as well as expansion and remodeling of existing business.

Gatling's Chapel Funeral Home has begun work on a 6,240 square foot renovation along with a 9,210 square foot addition. This project will modernize a longstanding funeral home and add an estimated 15 new employees. The project is estimated to cost \$1,370,000 and should be completed in 2019.

The Holland Inn, located in the I-80 TIF, was purchased and is being renovated. After the \$270,000 renovation is complete, the 38,270 square foot hotel will be rebranded as Super 8 Hotel.

Gurtler Industries, a 36-year South Holland manufacturer of laundry chemicals expanded their footprint in South Holland by purchasing adjacent vacant property and adding 4,000 square feet of office space and 61,000 square feet of warehouse space. The \$1,300,000 project added 8 new jobs and retained 43 jobs.

Village of South Holland, Illinois Management's Discussion and Analysis

The Village's aggressive approach to economic redevelopment continues with the rezoning of the area east of I-94 Interstate, establishing it into the Interstate Zoning District (IZD) on May 7, 2007. The rezoning is accompanied by a Master Plan and Site Design Guidelines to help bring about the hotel/conference center, big box retail, restaurants, corporate business park, etc. that are envisioned. Significant intersection and infrastructure improvements at U.S. Route 6 and Van Dam Road have been planned to support future developments in the IZD TIF.

The redevelopment of the 175 acre IZD has taken a huge leap forward with the creation of Gateway East TIF on November 19, 2007. With the full 23-year TIF life, the Village can incentivize developers to make investments in this pro-business community. Prior to creating Gateway East TIF, the Village terminated the smaller Center East TIF to make way for the Gateway East TIF. This termination has added over \$1,500,000 EAV of incremental value back to the general tax base. During 2015, the Gateway East TIF was restructured into three separate adjoining TIF districts. The two additional TIF districts are named IZD Zone A TIF and I-94 South TIF. The restructuring will assist in attracting future developments to this area of the Village. During 2018, construction began on a 5,000 square foot building in the Gateway East TIF. This building is expected to be leased to a Chipotle restaurant as well as 2 additional commercial tenants. This project is estimated at \$1,100,000.

The Village has been working diligently since 2003 to redevelop South Holland's old downtown area. South Holland's new Town Center will include signature shopping, beautiful landscaping, attractively designed office/retail buildings, sufficient parking, as well as a variety of services to an area that will support the proposed Metra Railroad station. The Village immediately began to acquire homes located within the footprint of the new Town Center, which is a tax incremental financing district and will continue to acquire parcels as they become available. The Village issued \$4,415,000, 20-year general obligation bonds to fund the additional acquisitions in 2011. The Village completed the construction to extend Wausau Avenue north from Route 6 in 2010. Town Center projects that have been completed include a new Walgreens on the northwest corner of Route 6 and South Park Avenue, Hamra Plaza, an 11,900 square-foot retail center including Panera Bread Restaurant, and Town Center Commons. During 2018, construction began on a 6,000 square foot building at the northeast corner of Route 6 and South Park Avenue. The building is expected to be leased by 1 or 2 commercial tenants and is estimated to cost \$570,000.

In June 2016, the Village created the Gateway West Tax Increment Financing District. A small portion of this project area was also previously included in the terminated South Suburban College TIF district. This new district includes the properties the Village had previously land banked as well as deteriorated properties north and south of U.S. Route 6 at the Village's west and north boundaries.

On March 7, 2011, Governor Pat Quinn signed into law House Bill 1644, which establishes the Southeast Commuter Rail Transit District. The new district gives local officials the tools they need to help build the Southeast Service Line, a proposed Metra line that will link 33 miles between Crete's Balmoral Park and downtown Chicago's LaSalle Street Station, with additional stops in Crete, Steger, South Chicago Heights, Chicago Heights, Glenwood, Thornton, South Holland, Dolton, and at 115th Street/Gresham and 35th Street stations on Chicago's South Side. The project will cost an estimated \$800 million and will open up service to one of the last regions in the metropolitan area without access to Metra.

The new line will provide greater access to jobs, and enable towns and neighborhoods along the route to pursue transit-oriented developments. The project was authorized in the 2005 federal transportation bill and Metra, Northeastern Illinois' commuter rail agency, completed the first phase Alternatives Analysis in 2010 that projected an average of 18,700 riders per weekday with annual operating costs estimated at \$28.8 million.

Since then, the Southeast Commuter Rail Transit District has named an Executive Director and established a Board consisting of representatives from the communities along the proposed line, as well as representatives from other communities in the region.

Village of South Holland, Illinois Management's Discussion and Analysis

The Federal Transit Administration (FTA) has a three step planning and approval process that includes an Alternative Analysis, Preliminary Engineering and Final Design. The Southeast Commuter Rail Transit District Board received funding from Illinois Department of Transportation, Illinois Department of Commerce and Economic Opportunity, and United States Department of Transportation and approved a \$650,000 budget that will prepare the proposed rail line project for the engineering phase of FTA's planning and approval process.

The State of Illinois Department of Commerce and Economic Opportunity has approved the Calumet Region Enterprise Zone which totals about 12.5 square miles of land within portions of Lansing, Calumet City, Dolton, South Holland, Riverdale, Thornton and parts of unincorporated Cook County. The new zone went into effect on January 1, 2017 and will exist for 15 years. Businesses located or expanding into the enterprise zone may be eligible for a number of economic incentives including sales tax breaks, waiver of permits and fees and other credits.

Requests for Information

This financial report is designed to provide a general overview of the Village's finances for all those with an interest in the government's operations. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the South Holland Village Treasurer, Beth Herman, 16226 Wausau Avenue, South Holland, Illinois 60473.

**Reconciliation of the Balance Sheet - Governmental Funds
to the Statement of Net Position
April 30, 2018**

Total fund balances-governmental funds	\$ 14,723,838
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	70,307,986
State intergovernmental revenue is deferred in the fund financial statements because it is not available but is recognized as revenue in the Statement of Activities.	7,500
Deferred outflows and deferred inflows of resources related to pensions which will be recognized as an increase or reduction to pension expense in future reporting periods:	
Deferred outflows due to pensions	3,269,364
Deferred inflows due to pensions	(3,995,018)
Pension contributions made after the actuarial valuation date used for calculation of the net pension liability are considered expenditures in the fund financial statements but are deferred outflows of resources in the government-wide financial statements.	167,911
Premiums related to refundings of bonds are reflected in the governmental funds in the year of refunding but are capitalized and amortized over the life of the bond issue and netted with the related bond liabilities in the Statement of Net Position.	(358,753)
Discounts related to refundings of bonds are reflected in the governmental funds in the year of refunding but are capitalized and amortized over the life of the bond issue and netted with the related bond liabilities in the Statement of Net Position.	37,506
Deferred losses on debt refundings are not considered to represent a financial resource and, therefore, are not reported in the funds.	602,512

Village of South Holland, Illinois

**Reconciliation of the Balance Sheet - Governmental Funds
to the Statement of Net Position
April 30, 2018**

The pension liability related to IMRF, police, and firefighters' pension plans is recorded on the Statement of Net Position, but not recorded in the funds

Net pension liability - Illinois Municipal Retirement Fund	(625,463)
Net pension liability - Police Pension Fund	(14,094,206)
Net pension liability - Firefighters' Pension Fund	(4,482,202)

Some liabilities reported in the Statement of Net Position do not require the use of current financial resources and, therefore, are not reported as liabilities in governmental funds. These liabilities consist of:

Claims payable	(636,958)
General obligation bonds	(4,240,000)
Tax incremental financing bonds	(9,595,000)
Capital appreciation bonds	(1,012,532)
Accrued interest	(64,146)
Compensated absences	(584,800)
Other postemployment benefits	(8,754,787)

Net position of governmental activities \$ 40,672,752

Village of South Holland, Illinois

**Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended April 30, 2018**

Net change in fund balances-total governmental funds \$ 1,905,689

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the lives of the assets. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital outlay	339,241
Depreciation	(1,726,410)
Disposal of land	(590,000)

Items related to pension expense and revenue are reported as deferred inflows and deferred outflows on the government-wide financial statements, but not on the fund financial statements:

Deferred outflows of resources related to pension expense	(1,828,427)
Deferred inflows of resources related to pension expense	(2,352,292)

The following are expenditures in the governmental funds, but the repayment of debt reduces long-term liabilities in the Statement of Net Position:

General obligation bonds	480,000
Tax incremental financing bonds	800,000
Capital appreciation bonds	650,000
Capital lease	17,553
Accretion of interest on capital appreciation bonds	(64,340)

Losses on refunding of bonds are not reflected in the fund financial statements but are recorded as part of liabilities in the Statement of Net Position.

Amortization of all losses on refunding	(78,346)
---	----------

Village of South Holland, Illinois

**Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended April 30, 2018**

Premiums and discounts on the issuance of bonds are recorded as other financing sources/uses in the fund financial statements, but recorded as contra-liabilities in the Statement of Net Position and amortized over the life of the bonds.

Amortization of premium	\$ 45,316
Amortization of discount	(4,869)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These activities consist of:

Change in claims payable	(263,387)
Change in accrued interest	127,430
Change in net pension liability	3,120,614
Change in compensated absences	87,250
Change in other postemployment benefits	<u>(447,500)</u>

Change in net position of governmental activities	<u>\$ 217,522</u>

Village of South Holland, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies

The Village of South Holland provides various municipal services to its residents. These services include police protection, fire protection, paramedic services, water and sewer systems, public works operations, road and bridge maintenance and general administration. As required by accounting principles generally accepted in the United States of America, these financial statements include all of the funds and account groups of the Village of South Holland, the primary government, and South Holland Public Library, its component unit, which is included in the Village's reporting entity because of its operational and financial relationship with the Village.

The South Holland Public Library provides library services to the residents of the Village of South Holland, but is governed by a board which is separately elected by the public. Financial data of the Library has been discretely presented in the component unit column in the general purpose financial statements to emphasize that it is legally separate from the Village. Separate financial statements of the Library are not prepared.

The accounting policies of the Village of South Holland conform to accounting principles generally accepted in the United States of America as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies:

Financial Reporting Entity

As defined by generally accepted accounting principles (GAAP) established by the GASB, the financial reporting entity consists of the primary government, as well as component units, which are legally separate organizations for which elected officials of the primary government are financially accountable. Financial accountability is defined as:

- (1) Appointment of a voting majority of the component unit's board, and either (a) the ability to impose will by the primary government, or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- (2) Fiscal dependency on the primary government.

Financial benefit or burden is created if any one of the following relationships exists:

- (1) The primary government is legally entitled to or has access to the component unit's resources.
- (2) The primary government is legally required or has assumed the obligation to finance the deficits of, provide support to, the component unit.
- (3) The primary government is obligated in some manner for the other component unit's debt.

The Village of South Holland Public Library is responsible for providing services to the Village's residents. The members of the governing board of the South Holland Public Library are elected by the voters of the Village; however, the Library is fiscally dependent on the Village as the tax levy established by the Library and bonded debt must be approved by the Village. In addition to the criteria above, if a financial benefit and burden relationship exists, a component unit should be included in the primary government's financial statements. Based on the applicable criteria, the Library is a discretely presented component unit within these financial statements.

Village of South Holland, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Government-Wide and Fund Financial Statements

Government-Wide Financial Statements: The government-wide Statement of Net Position and Statement of Activities report the overall financial activity of the Village. Eliminations have been made to minimize the double-counting of internal activities of the Village. The financial activities of the Village consist of governmental activities, which are primarily supported by taxes and intergovernmental revenues, and business-type activities, which rely to a significant extent on fees and charges for services.

The Statement of Net Position presents the Village's non-fiduciary assets and liabilities with the difference reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds and other debt that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position result when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position that does not meet the criteria of the two preceding categories.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function (i.e., general government, public safety, etc.) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs (including fines and fees), and (b) grants and contributions that are restricted to meeting the operational requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fiduciary funds are excluded from the government-wide financial statements.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary (agency) funds, even though the latter are excluded from the government-wide financial statements. The fund financial statements provide information about the Village's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The Village used funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregation transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balance set of accounts.

The Village administers the following major governmental funds:

General Fund - This is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The services which are administered by the Village and accounted for in the general fund include general government, public safety, public works, and garbage.

Village of South Holland, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Interstate 80 TIF Fund - This Capital Project fund is used to account for the incremental property taxes and related redevelopment costs pertaining to the Interstate 80 TIF District.

Park Fund – This Special Revenue fund is used to account for the financial resources of the Village's community center. The services which are administered by the Village and accounted for in the park fund include the Village's fitness center, pre-school, and facilities rentals.

The Village administers the following major proprietary fund:

Water Fund - accounts for the provision of water services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including but not limited to, administration, operations, maintenance, financing and related debt service and billing and collection.

Additionally, the Village administers fiduciary (pension trust) funds for assets held by the Village in a fiduciary capacity on behalf of certain public safety employees and an agency fund that is used to account for assets held by the Village for others in an agency capacity.

Measurement Focus and Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Nonexchange transactions, in which the Village gives (or receives) value without directly receiving (or giving) equal value in exchange, include various taxes, state shared revenues and various state, federal and local grants. On an accrual basis, revenues from taxes are recognized when the Village has a legal claim to the resources. Grants, entitlements, state shared revenues and similar items are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal year, subject to judgment and consistency so as not to artificially distort normal revenue patterns, except for property taxes which are further explained in Note 3.

Significant revenue sources which are susceptible to accrual include property taxes, other taxes, grants, charges for services, and interest. All other revenue sources are considered to be measurable and available only when cash is received.

Expenditures should be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term liabilities, which should be recognized when due. However, compensated absences are recorded only when payment is due (upon employee retirement or termination). General capital asset acquisitions are reported as expenditures in governmental funds.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal ongoing operations.

Village of South Holland, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, liabilities, and net position or fund balance

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Village's proprietary fund types consider all highly liquid investments with maturities of three months or less, at the date of purchase to be cash equivalents.

Investments

In accordance with GASB No. 72, *Fair Value Measurement and Application*, implemented by the Village as required in fiscal year 2017, the Village reports all other investments at fair value. Short-term investments are reported at amortized cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Fair value for the majority of fixed income securities is determined by using quoted market prices by independent pricing services.

Interfund Receivables, Payables and Activity

The Village has the following types of transactions between funds:

Loans—amounts provided with a requirement for repayment. Interfund loans are reported as due from other funds in lender funds and due to other funds in borrower funds for short-term borrowings and advances to other funds in lender funds and advances from other funds in borrower funds for long-term borrowings. Amounts are reported as internal balances in the government-wide Statement of Net Position.

Reimbursements—repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them. Reimbursements are reported as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund.

Transfers—flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers. In proprietary funds, transfers in/out are reported as a separate category after non-operating revenues and expenses.

Inventories

Inventories are accounted for at cost, using the first-in, first-out method. Inventories are accounted for under the consumption method, whereby acquisitions are recorded in inventory accounts initially and charged as expenditures when used.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital and Intangible Assets

Capital assets which include land, streets, buildings, storm sewers, sanitary sewers, water mains, vehicles and intangible assets, which include easements and similar items, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$30,000, and an estimated useful life of greater than one year. Additions or improvements that significantly extend the useful life of an asset, or that significantly increase the capacity of an asset are capitalized. Expenditures for asset acquisitions and improvements are stated as capital outlay expenditures in the governmental funds.

These assets have been valued at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at their estimated fair market value at the date of donation.

Village of South Holland, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Interest incurred during the construction phase of capital assets is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Gains or losses from sales or retirements of capital assets are included in the operations on the Statement of Activities.

Depreciation of capital assets is recorded in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Position and is provided on the straight-line basis over the following estimated useful lives:

	<u>Estimated Useful Lives</u>
Land improvements	15 – 30 years
Buildings	40 – 50 years
Machinery and equipment	10 – 20 years
Streets and sidewalks	20 years
Storm	25 years
Streetlights	10 years
Distribution system	40 years

Deferred Outflows of Resources, Deferred Inflows of Resources and Unearned Revenues

Deferred outflows of resources arise when the consumption of net position in one period is applicable to future periods. The Village reflects its deferred pension contributions, and deferred losses on bond refunding as deferred outflows of resources.

Deferred inflows of resources are the acquisition of net position or fund balance that is applicable to future reporting periods. Deferred inflows of resources arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period for the governmental funds. Deferred inflows of resources also result when timing requirements relating to imposed tax revenues are not met, as in when property tax receivables are recorded prior to the period the levy is intended to finance. In addition, the Village reports deferred inflows due to pensions on the government-wide financial statements. See Note 6 for pension related disclosures.

Unearned revenues arise when resources are received by the Village before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met or when the Village has a legal claim to the resources, the liability for unearned revenues is removed from the financial statements and revenue is recognized.

Compensated Absences

Village employees accumulate vacation hours for subsequent use or for payment upon termination, death or retirement. All accrued vacation pay is recognized as an expense and as a liability of the enterprise funds at the time the liability is incurred. Governmental fund types record accumulated vacation pay as an expenditure in the current year to the extent it is paid or is expected to be paid with available financial resources; otherwise it is accounted for as a short-term liability in the Statement of Net Position.

Long-Term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations, including compensated absences, are reported as liabilities in the applicable governmental or business-type activities and proprietary fund Statement of Net Position. Bond premiums and discounts are deferred and amortized on a straight-line basis over the life of the bonds. Bond issuance costs are expensed when incurred.

Village of South Holland, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Debt service funds are specifically established to account for and service the long-term obligations for the governmental funds debt. Enterprise funds individually account for and service the applicable debt that benefits those funds.

Claims and Judgments

Liabilities resulting from claims and judgments, including claims incurred but not reported, have been reflected in the financial statements.

Fund Balances

Within the governmental fund types, the Village's fund balances are reported in one of the following classifications:

Nonspendable – includes amounts that cannot be spent because they are either (a) not in spendable form; or (b) legally or contractually required to be maintained intact.

Restricted – includes amounts that are restricted to specific purposes, that is, when constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Village's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Village removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The Village's highest level of decision-making authority rests with the Village's Board of Trustees. The Village passes formal resolutions to commit their fund balances. At April 30, 2018, the Village had no committed fund balances.

Assigned – Includes amounts that are constrained by the Village's intent to be used for specific purposes, but that are neither restricted nor committed. Intent is expressed by: (a) the Village's Board of Trustees itself; or (b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Village's Board of Trustees has not authorized any other body or official to assign amounts for specific purpose within the General Fund. Within the other governmental fund types (special revenue, debt service, capital projects) resources are assigned in accordance with the established fund purpose and approved budget/appropriation. Residual fund balances in these fund types that are not restricted or committed are reported as assigned. Within these same funds, a residual deficit, if any, is reported as unassigned. At April 30, 2018, the Village has no assigned balances.

Unassigned – includes the residual fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

It is the Village's policy for the General Fund to consider restricted resources to have been spent first when an expenditure is incurred for which both restricted and unrestricted (i.e. committed, assigned or unassigned) fund balances are available, followed by committed and then assigned fund balances. Unassigned amounts are used only after the other resources have been used.

Village of South Holland, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

For all other governmental funds, it is the Village's policy to consider unrestricted resources (i.e., committed, assigned) to have been spent first, followed by restricted resources.

At April 30, 2018, the Village's fund balance restrictions were for the following purposes:

Restricted purpose:		
MFT projects		\$ 1,155,047
Debt service		83,092
Capital projects:		
Interstate 80 TIF District		4,361,482
Other TIF Districts and capital projects		3,980,777
Total restricted		<u>\$ 9,580,398</u>

Capital Contributions

Capital contributions reported in the governmental and proprietary funds represent capital assets donated from outside parties, principally developers.

Accounting Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenditures/expenses during the period. Actual results could differ from these estimates.

Note 2. Cash and Investments

Cash and investments are held separately and in pools by several of the Village's funds. The Village maintains various cash and investment pools that are available for use by all funds. Income from pooled investments is allocated to the funds based on their proportional share of their investment balance. The deposits and investments of the Police and Firefighters' Pension Funds (Pension Funds) are held separately.

A summary of cash and investments as of April 30, 2018, is as follows:

	Governmental & Business- Type Activities	Fiduciary Funds			Component Unit Library
		Police Pension Fund	Fire Pension Fund	Agency Funds	
Cash	\$ 3,227,490	\$ 10,000	\$ 10,000	\$ 30,294	\$ 1,225,178
Money market	-	1,235,493	54,825	-	-
Illinois Funds	16,780,056	-	-	-	-
U.S. Government Agencies	-	4,252,709	2,817,849	-	-
U.S. Treasuries	-	81,485	34,923	-	-
Municipal bonds	-	824,318	456,739	-	-
Corporate bonds	-	3,396,633	2,345,414	-	-
Stock equities	-	4,118,374	2,037,579	-	-
Mutual Funds	-	12,939,094	6,644,262	-	-
Total	<u>\$ 20,007,546</u>	<u>\$ 26,858,106</u>	<u>\$ 14,401,591</u>	<u>\$ 30,294</u>	<u>\$ 1,225,178</u>

Village of South Holland, Illinois

Notes to Financial Statements

Note 2. Cash and Investments (Continued)

Deposits: The Village is authorized to make deposits in commercial banks and savings and loan institutions and make investments in obligations of the U.S. Treasury and U.S. Government Agencies, obligations of states and their political subdivisions, savings accounts, credit union shares, repurchase agreements, under certain statutory restrictions, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds. Pension funds may also invest in certain non-U.S. obligations, mortgages, veteran's loans, and life insurance company contracts.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, which is the price the investment could be sold for.

Investment policies - The Village and the Library's investments are made in accordance with the Public Funds Investment Act (30 ILCS 235/1) (the Act) and the Village's investment policy. The Police and Firefighters' Pension Funds' investments are made in accordance with the Illinois Pension Code (40 ILCS 5/1-113.2 to 113.10) and each respective pension funds' investment policy. The Pension Funds' investment policies limit the maximum maturity for any single investment at ten years. However, a larger term investment may be utilized if approved by the Board.

Custodial credit risk – deposits. Custodial credit risk is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. The Village does not have a deposit policy for custodial credit risk. As of April 30, 2017, the carrying amount of the Village's deposits with financial institutions, excluding cash on hand of \$550, totaled \$5,792,740. As of April 30, 2018, the carrying amount of the Library's deposits, excluding cash on hand of \$100, was \$1,225,078. Total bank balances relating to the Village's and Library's deposits with financial institutions totaled \$6,519,647. These bank balances are fully insured and collateralized.

Interest rate risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Village's investment policy requires diversified investments to eliminate the risk of loss resulting in over-concentration in a specific maturity. However, the Village's investment policy does not specifically identify limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. As of April 30, 2018, the Village did not have any investments.

In accordance with their investment policies, the pension funds limit their exposure to interest rate risk by structuring the portfolios to provide liquidity for short- and long-term cash flow needs while providing a reasonable rate of return based on the current market.

As of April 30, 2018, the Police Pension Fund had the following investments and maturities:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1-5	6-10	More Than 10
Police Pension Fund					
Corporate bonds	\$ 3,396,633	\$ 290,826	\$ 2,189,262	\$ 916,545	\$ -
Municipal bonds	824,318	634,613	128,185	61,520	-
U.S. Government Agencies	4,252,709	452,959	2,285,593	1,514,157	-
U.S. Treasuries	81,485	81,485	-	-	-
Total Police Pension	<u>\$ 8,555,145</u>	<u>\$ 1,459,883</u>	<u>\$ 4,603,040</u>	<u>\$ 2,492,222</u>	<u>\$ -</u>

Village of South Holland, Illinois

Notes to Financial Statements

Note 2. Cash and Investments (Continued)

As of April 30, 2018, the Firefighters' Pension Fund had the following investments and maturities:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1-5	6-10	More Than 10
Fire Pension Fund					
Corporate bonds	\$ 2,345,414	\$ 295,187	\$ 1,701,141	\$ 349,086	\$ -
Municipal bonds	456,739	456,739	-	-	-
U.S. Government Agencies	2,817,849	399,037	1,347,286	1,071,526	-
U.S. Treasuries	34,923	34,923	-	-	-
Total Firefighters' Pension	<u>\$ 5,654,925</u>	<u>\$ 1,185,886</u>	<u>\$ 3,048,427</u>	<u>\$ 1,420,612</u>	<u>\$ -</u>

Credit risk. State law limits investments in stock equities, corporate bonds and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations (NRSROs). It is the Village's policy to limit its investments in these types to the top rating issued by NRSROs. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Village helps limit its exposure to credit risk by diversifying investments to minimize the risk of loss resulting from over concentration of assets in a specific maturity period, a single issuer, or an individual class of securities. As of April 30, 2018, the Village did not have any investments other than those deposited in the Illinois Funds.

The Pension Funds' general investment policies follow the prudent person rule subject to the specific restrictions of the Illinois Pension Code and the Pension Funds' asset allocation policy. Under the prudent person rule, investments shall be made with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in like capacity and familiar with such matters would use in the investment of a fund or like character and with like aims.

As of April 30, 2018, the Village's Police Pension Fund investments in U.S. Treasury obligations, U.S. Agency obligations, state and local obligations and corporate bonds obligations were rated AAA (\$81,486), AA+ (\$4,380,883), Aa1 (\$125,821), AA (\$112,294), Aa3 (\$272,932), A+ (\$97,749), A (\$1,161,004), A- (\$1,006,739), BBB+ (\$941,526) and BBB (\$374,711).

As of April 30, 2018, the Village's Firefighters' Pension Fund investments in U.S. Treasury obligations, U.S. Agency obligations, state and local obligations and corporate bonds obligations were rated AAA (\$34,923), AA+ (\$2,919,546), AA (\$355,042), A (\$604,847), A- (\$485,983), BBB+ (\$905,568) and BBB (\$349,016).

Village of South Holland, Illinois

Notes to Financial Statements

Note 2. Cash and Investments (Continued)

Concentration of credit risk. The Village's investment policy requires diversified investments to eliminate the risk of loss resulting in over-concentration in a specific issuer or class of securities. The diversification required is as follows:

- a. Up to a 100 percent investment in bonds, notes, certificates of indebtedness, treasury bills or other securities now or hereafter issued by the United States of America, its agencies and allowable instrumentalities;
- b. Up to a 90 percent investment in interest-bearing saving accounts, certificates of deposit or time deposits or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act, or certificates of deposits with federally insured institutions that are collateralized or insured at levels acceptable to the Village in excess of the \$250,000 provided by the Federal Deposit Insurance Corporation coverage limit; and
- c. Up to a 33 percent investment in collateralized repurchase agreements, commercial paper, the Illinois Funds or the Illinois Municipal League Liquid Asset Fund.

At April 30, 2018, the Village was not exposed to concentration of credit risk.

The Pension Funds' investment policies require diversification of investment to avoid unreasonable risk.

As of April 30, 2018, more than 5 percent of the Police Pension Fund's investments are in the following U.S. Government Agencies: Federal Home Loan Bank and Federal Farm Credit Bank. The investment comprise 8.1 percent and 7.2 percent of the Police Pension Fund's total investments, respectively.

As of April 30, 2018, more than 5 percent of the Firefighters' Pension Fund's investments are in the following U.S. Government Agencies: Federal Home Loan Bank and Federal Farm Credit Bank. The investment comprise 8.6 percent and 9.4 percent of the Firefighters' Pension Fund's total investments, respectively.

Custodial credit risk. For an investment, this is the risk that, in the event of failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The Village's investment policy states that all security transactions, including collateral for any repurchase agreements, entered into by the Village shall be conducted on a delivery versus payment basis, which requires the delivery of securities with an exchange of money for those securities. The policy also states that securities will be held by a third party custodian designated by the Treasurer and evidenced by safekeeping receipts and reports. The U.S. Treasuries, U.S. Government agencies, municipal bonds, and corporate bonds are held by the Village's agent in the Village's name. The Illinois Funds, stock equities and equity mutual funds are not subject to custodial credit risk.

Village of South Holland, Illinois

Notes to Financial Statements

Note 2. Cash and Investments (Continued)

The Village implemented GASB Statement No. 72, *Fair Value Measurement and Application*, for the year ended April 30, 2017. In accordance with this Statement, the Village categorized its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation on the inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs; Level 3 inputs are significant unobservable inputs. The Village has the following recurring fair value measurements as of April 30, 2018:

Investments by fair value level	Fair Value Measurements			
	4/30/2018	Level 1	Level 2	Level 3
Fire Pension Fund				
U.S. Treasuries	\$ 34,923	\$ -	\$ 34,923	\$ -

The Village has investments measured at net asset value (NAV) such as the Illinois Funds. In addition, the Village has investments measured at amortized cost as the remaining maturity at purchase is less than one year, such as participating certificates of deposit and money market accounts. The following are investments measured at NAV or amortized cost.

Instruments measured by net asset value (NAV), and amortized cost	04/30/2018	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Village:				
Illinois Funds	\$ 16,780,056	N/A	Daily	1 day

Firefighters' Pension Fund:				
Money Market	54,825	N/A	Daily	1 day
	<u>\$ 18,070,373</u>			

Village of South Holland, Illinois

Notes to Financial Statements

Note 3. Property Taxes

The Village annually establishes a legal right to the property tax assessments upon the enactment of a tax levy ordinance by the Village Board. These tax assessments are levied in December and attach as an enforceable lien on the previous January 1. Tax bills are prepared by Cook County and issued on or about February 1 and August 1, and are payable in two installments which become due on or about March 1 and September 1. The County collects such taxes and periodically remits them to the Village. Property taxes are recognized as a receivable at the time they are levied. In the governmental activities of the government-wide financial statements and the governmental funds of the fund financial statements, since the 2016 tax levy is intended to finance the expenditures for the year ended April 30, 2018, revenue from the entire 2017 tax levy has been deferred for recognition to the year ended April 30, 2019. The 2016 property tax levy, together with any prior levy year collections, has been recognized as revenue of the governmental funds for the year ended April 30, 2018. A 1 percent reduction of the tax levy amount for collection losses has been made to reduce the property taxes receivable to the estimated amount to be collected.

Note 4. Capital Assets

Governmental Activities

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments

Substantially all Village employees are covered under one of the following employee retirement plans:

Illinois Municipal Retirement Fund

Plan Description. The Village's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The Village plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org.

Benefits Provided. The Village participates in IMRF's Regular Plan (RP). Employees hired **before** January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3 percent of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3 percent of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Term. As of April 30, 2018, the following employees were covered by the benefit terms:

	<u>Membership</u>
Inactive Plan members or beneficiaries currently receiving benefits	121
Inactive Plan members entitled to but not yet receiving benefits	77
Active Plan members	<u>118</u>
Total membership	<u><u>316</u></u>

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Contributions. As set by statute, the Village's Regular Plan Members are required to contribute 4.5 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village's annual contribution rates for calendar years 2018 and 2017 were 12.92 percent and 12.42 percent, respectively. For the fiscal year ended April 30, 2018, the Village contributed \$679,595 to the plan.

The contributions as of April 30, 2018, are reported in the financial statements as follows:

Governmental Activities - general government expense	\$ 461,854
Business-Type Activities and Water Fund	110,223
Component Unit - Library	<u>107,518</u>
Total	<u><u>\$ 679,595</u></u>

The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability. The Village's net pension liability was measured as of December 31, 2017. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Actuarial Assumptions. The following are the methods and assumptions used to determine total pension liability at December 31, 2017:

- The **Actuarial Cost Method** used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.50 percent.
- **Salary Increases** were expected to be 3.39 percent to 14.25 percent, including inflation.
- The **Investment Rate of Return** was assumed to be 7.50 percent.
- **Projected Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.
- The IMRF-specific rates for **Mortality** (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For **Disabled Retirees**, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For **Active Members**, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	37%	6.85%
International Equity	18%	6.75%
Fixed Income	28%	3.00%
Real Estate	9%	5.75%
Alternative Investments	7%	2.65 - 7.35%
Cash Equivalents	1%	2.25%
Total	100%	

The assumptions were changed from the prior year as follows:

- Inflation rate was changed from 2.75% to 2.50%.
- Salary increases were changed from 3.75% - 14.50% to 3.39% - 14.25%
- The mortality assumption was updated from the MP-2014 to include mortality improvements based on the MP-2017 table.
- The experience-based table rates used for the projected retirement ages was updated from the 2014 valuation according to an experience study from years 2011-2013 to a 2017 valuation pursuant to an experience study from years 2014-2016.

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Single Discount Rate. A Single Discount Rate of 7.50 percent was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50 percent, the municipal bond rate is 3.31 percent, and the resulting single discount rate is 7.50 percent.

Changes in the Net Pension Liability.

The following table shows the components of the Village's annual pension liability and related plan fiduciary net position for the year ended December 31, 2017:

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balances at January 1, 2017	\$ 36,979,431	\$ 31,839,165	\$ 5,140,266
Changes for the year:			
Service Cost	557,464	-	557,464
Interest on the Total Pension Liability	2,725,328	-	2,725,328
Changes of Benefit Terms	-	-	-
Differences Between Expected and Actual			
Experience of Total Pension Liability	(525,327)	-	(525,327)
Changes of Assumptions	(1,079,894)	-	(1,079,894)

Net Changes	(163,337)	4,056,591	(4,219,928)
Balances at December 31, 2017	\$ 36,816,094	\$ 35,895,756	\$ 920,338

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.50 percent, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1 percent lower or 1 percent higher:

	1% Decrease 6.50%	Current Discount Rate 7.50%	1% Increase 8.50%
Village's net pension liability	\$ 5,440,480	\$ 920,338	\$ (2,781,230)

The net pension liability as of April 30, 2018, is reported on the financial statements as follows:

Governmental Activities	\$ 625,463
Business-Type Activities and Water Fund	149,269
Component Unit - Library	<u>145,606</u>
Total	<u><u>\$ 920,338</u></u>

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. For the year ended April 30, 2018, the Village recognized pension expense of \$227,644. Pension income as of April 30, 2018 is reported in the financial statements as follows:

Governmental Activities - general government expense	\$ 236,260
Business-Type Activities and Water Fund	1,058
Component Unit - Library	<u>(9,674)</u>
Total	<u><u>\$ 227,644</u></u>

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

As of April 30, 2018, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Deferred Amounts to be Recognized in Pension		
Expense in Future Periods		
Differences between expected and actual experience	\$ 266,970	\$ 401,590
Changes of assumptions	12,883	872,413
Net difference between projected and actual earnings on pension plan investments	-	1,732,064
	<hr/>	<hr/>
Total deferred amounts to be recognized in pension expense in future periods	279,853	3,006,067
Employer contribution subsequent to the measurement date	247,074	-
Change in proportionate share	262,251	262,251
	<hr/>	<hr/>
Total Deferred Amounts Related to Pensions	\$ 789,178	\$ 3,268,318
	<hr/> <hr/>	<hr/> <hr/>
Governmental Activities - general government expense	\$ 439,613	\$ 2,235,935
Business-Type Activities and Water Fund	170,119	442,484
Component Unit - Library	179,446	589,899
	<hr/>	<hr/>
Total	\$ 789,178	\$ 3,268,318
	<hr/> <hr/>	<hr/> <hr/>

Pension contributions of \$247,074 subsequent to the measurement date will be recognized in fiscal year 2019. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

	Net Deferred Outflows of Resources
Year ending April 30:	
2018	\$ (456,319)
2019	(511,543)
2020	(1,000,856)
2021	(757,496)
2022	-

Note 6. Pension and Retirement Plan Commitments (Continued)

Police Pension Fund

Summary of Significant Accounting Policies

Basis of accounting:

The financial statements for the Police Pension Fund are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Administrative costs are financed through investment earnings. No stand-alone statements are issued for the defined benefit pension plan.

Plan Description

Plan administration:

Police-sworn personnel are covered by the Police Pension Plan, which is a defined benefit single-employer pension plan administered by the Village of South Holland. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Article 3 of the Illinois Pension Code and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund. An actuarial valuation was performed as of April 30, 2018, and, accordingly, the most recent available information has been presented.

Management of the Police Pension Plan is vested in the Police Pension Board which consists of five members, two members are elected from and by the active police, one is elected from and by the retiree beneficiaries and two are appointed by the Mayor with the approval of the Village Board of Trustees.

Plan membership:

At April 30, 2018, the Police Pension Plan membership consisted of:

Inactive plan members or beneficiaries currently receiving benefits	31
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	<u>44</u>
Total membership	<u><u>75</u></u>

Benefits provided:

The Illinois Pension Code (40 ILCS 5/Art. 3) is the authority under which pension benefit terms are established. The Police Pension Plan provides retirement benefits as well as death and disability benefits.

Covered employees hired before January 1, 2011 attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5 percent of such salary for each additional year of service over 20 years up to 30 years, and 1 percent of such salary for each additional year of service over 30 years, to a maximum of 75 percent of such salary.

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Police Pension Fund (Continued)

Covered employees hired on or after January 1, 2011 attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive an annual retirement benefit of 2.5 percent of final average salary for each year of service, with a maximum salary cap of \$106,800 as of January 1, 2011. The maximum salary cap increases each year thereafter. The monthly benefit of a police officer hired before January 1, 2011, who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3 percent of the original pension and 3 percent compounded annually thereafter. The monthly pension of a police officer hired on or after January 1, 2011, shall be increased annually, following the later of the first anniversary date of retirement or the month following the attainment of age 60, but the lessor of 3 percent or one half of the consumer price index. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit.

Contributions:

Covered employees are required to contribute 9.91 percent of their base salary to the plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Illinois Pension Code (40 ILCS 5/Art. 3) establishes the contribution requirements of the Village. The annual requirement is equal to (1) the normal cost of the pension fund for the year plus (2) an amount sufficient to bring the total assets of the pension fund up to 90 percent of the actuarial liabilities of the pension fund by April 30, 2041. Only the State legislature can amend the contribution requirements. For the year-ended April 30, 2018, the Village's contribution was 38.9 percent of covered payroll.

Investments

Investment policy:

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Police Pension Board by a majority vote of its members. It is the policy of the Police Pension Board to pursue an investment strategy that minimizes risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. See Note 2 for more details on the Police Pension's investment policy. The following is the Board's adopted asset allocation policy as of April 30, 2018:

Asset Class	Minimum Target Asset Allocation	Maximum Target Asset Allocation
Cash and Cash Equivalents	0%	20%
Fixed Income	0%	75%
Equities	15%	65%

The long-term expected rate of return on pension plan investments was determined using a building-block method. The best estimate of future real rates of return are developed for each of the major asset classes. Future real rates of return are weighted based on the target asset allocation as adopted by the Board within the investment policy. Expected inflation is added back in. Adjustment is made to reflect geometric returns.

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Police Pension Fund (Continued)

Investments (Continued)

The following are the expected long-term expected arithmetic real rates of return by asset class as of April 30, 2018:

Asset Class	Long-Term Expected Rate of Return	Long-Term Inflation Expectations	Long-Term Expected Real Rate of Return
Fixed Income:			
U.S. Treasuries	4.30%	2.50%	1.80%
U.S. Agencies	4.50%	2.50%	2.00%
Taxable Municipal Securities	4.50%	2.50%	2.00%
Corporate Bonds	5.00%	2.50%	2.50%
Equities:			
International Equities	7.80%	2.50%	5.30%
U.S. Large-Cap Equities	7.50%	2.50%	5.00%
U.S. Mid-Cap Equities	7.80%	2.50%	5.30%
U.S. Small-Cap Equities	7.50%	2.50%	5.00%
Alternatives:			
Real Estate	6.80%	2.50%	4.30%
Global Infrastructure	7.30%	2.50%	4.80%
Emerging Market Stocks	10.70%	2.50%	8.20%

Method used to value investments:

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value.

Significant Investments

Information on significant investments is presented in Note 2 under "Concentration of Credit Risk."

Rate of return:

For the year ended April 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 7.60 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Police Pension Fund (Continued)

Net Pension Liability of the Village

The components of the net pension liability of the Village at April 30, 2018, are as follows:

Total pension liability	\$ 41,049,266
Plan fiduciary net position	26,955,060
Village's net pension liability	<u>\$ 14,094,206</u>

Plan fiduciary net position as a percentage of the total pension liability	65.67%
--	--------

The total pension liability was determined by an actuarial valuation as of May 1, 2017, using the following methods and actuarial assumptions, applied to all periods included in the measurement and rolled forward to April 30, 2018:

Methods and Assumptions

Valuation date	May 1, 2017
Actuarial cost method	Entry Age Normal (Level Percentage)
Amortization method	Level Percentage of Payroll (Closed)
Discount Rate used for the Total Pension Liability	7.25%
Long-Term Expected Rate of Return on Plan Assets	7.25%
High Quality 20-Year Tax-Exempt G.O. Bond Rate (based on the Bond Buyer 20-Bond GO Index)	3.97%
Projected Individual Salary Increases	4.00 - 10.47%
Projected Increase in Total Payroll	3.50%
Consumer Price Index (Urban)	2.50%
Inflation Rate Included	2.50%
Actuarial assumptions:	
Mortality Table	L&A 2016 Illinois Police Mortality Rates
Retirement Rates	L&A 2016 Illinois Police Retirement Rates Capped at age 65
Disability Rates	L&A 2016 Illinois Police Disability Rates
Termination Rates	L&A 2016 Illinois Police Termination Rates
Percent Married	80%

The actuarial assumptions used in the April 30, 2018 valuation were based on the results of an actuarial assumption study for the period including various municipal fiscal years ending December 2009 – June 2015. The study was performed by Lauterbach and Amen LLP (L&A), which provides a variety of accounting and actuarial services to police and firefighter pension funds across the State of Illinois.

The assumptions were changed from the prior year. The assumed rate on the High Quality 20-year tax-exempt G.O. bond was changed from 3.82 to 3.97. The mortality assumption was updated to include mortality improvements based on the MP-2016 table. The rates are being applied on a fully-generational basis.

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Police Pension Fund (Continued)

Discount rate:

The discount rate used to measure the total pension liability is 7.25 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Cash flow projections are used to determine the extent to which the Plan's future net position will be able to cover future benefit payments.

Net Pension Liability of the Village (Continued)

Changes in the Net Pension Liability:

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balances at May 1, 2017	\$ 39,603,394	\$ 25,276,017	\$ 14,327,377
Changes for the year:			
Service Cost	886,751	-	886,751
Interest on the Total Pension Liability	2,799,135	-	2,799,135
Changes of Benefit Terms	146,383	-	146,383
Differences Between Expected and Actual Experience of Total Pension Liability	(397,135)	-	(397,135)
Changes of Assumptions	-	-	-
Contributions - Employer	-	1,389,014	(1,389,014)
Contributions - Employees	-	359,486	(359,486)
Contributions - Other	-	48,730	(48,730)
Net Investment Income	-	1,912,656	(1,912,656)
Benefit Payments, Including Refunds of Employee Contributions	(1,989,262)	(1,989,262)	-
Other (Net Transfer)	-	(41,581)	41,581
Net Changes	<u>1,445,872</u>	<u>1,679,043</u>	<u>(233,171)</u>
Balances at April 30, 2018	\$ 41,049,266	\$ 26,955,060	\$ 14,094,206

To the extent future benefit payments are covered by the Plan's projected net position, the expected long-term rate of return on plan assets is used to determine the portion of the net pension liability associated with those payments. To the extent future benefit payments are not covered by the Plan's projected net position, the municipal bond rate is used to determine the portion of the net pension liability associated with those payments. The Plan's projected net position is expected to cover future benefit payments in full for the current members for the next 80 years. Therefore, the long-term expected rate of return on pension plan assets was applied only to those years and for the remaining years the municipal bond rate was used.

Sensitivity of the net pension liability to changes in the discount rate:

The following presents the net pension liability of the Village as of the valuation date of April 30, 2018, calculated using the discount rate of 7.25 percent, as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate.

Village of South Holland, Illinois

Firefighters' Pension Fund

Summary of Significant Accounting Policies

Basis of accounting:

The financial statements for the Firefighters' Pension Fund are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Administrative costs are financed through investment earnings.

Plan Description

Plan administration:

Sworn firefighter personnel are covered by the Firefighters' Pension Plan, which is a defined benefit single-employer pension plan administered by the Village of South Holland. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Article 4 of the Illinois Pension Code and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund. The Village's most recent actuarial valuation was performed as of April 30, 2018, and, accordingly, the most recent available information has been presented.

Management of the Fire Pension Plan is vested in the Fire Pension Board which consists of five members, two members are elected from and by the active police, one is elected from and by the retiree beneficiaries and two are appointed by the Mayor with the approval of the Village Board of Trustees.

Plan membership:

At April 30, 2018, the Firefighters' Pension Plan membership consisted of:

Inactive plan members or beneficiaries currently receiving benefits	13
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	<u>23</u>
Total membership	<u><u>36</u></u>

Note 6. Pension and Retirement Plan Commitments (Continued)

Firefighters' Pension Fund (Continued)

Plan Description (Continued)

Benefits provided:

The Illinois Pension Code (40 ILCS 5/Art. 4) is the authority under which pension benefit terms are established. The Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits. Covered employees hired before January 1, 2011 attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5 percent of such salary for each additional year of service over 20 years up to 30 years, and 1 percent of such salary for each additional year of service over 30 years, to a maximum of 75 percent of such salary.

Covered employees hired on or after January 1, 2011 attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive an annual retirement benefit of 2.5 percent of final average salary for each year of service, with a maximum salary cap of \$106,800 as of January 1, 2011. The maximum salary cap increases each year thereafter. The monthly benefit of a police officer hired before January 1, 2011, who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3 percent of the original pension and 3 percent compounded annually thereafter. The monthly pension of a police officer hired on or after January 1, 2011, shall be increased annually, following the later of the first anniversary date of retirement or the month following the attainment of age 60, but the lessor of 3 percent or one half of the consumer price index. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit.

Contributions:

Covered firefighter employees are required to contribute 9.455 percent of their base salary to the plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Illinois Pension Code (40 ILCS 5/Art. 4) establishes the contribution requirements of the Village. The annual requirement is equal to (1) the normal cost of the pension fund or 7.5 percent of the salaries and wages to be paid to firefighters for the year involved, whichever is greater, plus (2) an annual amount sufficient to bring the total assets of the pension fund up to 90 percent of the total actuarial liabilities of the pension fund by December 31, 2040. Only the State legislature can amend the contribution requirements. For the year ended April 30, 2018, the Village's contribution was 31.8 percent of covered payroll.

Investments

Investment policy:

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Firefighters' Pension Board by a majority vote of its members. It is the policy of the Firefighters' Pension Board to pursue an investment strategy that minimizes risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes.

Firefighters' Pension Fund (Continued)

Method used to value investments:

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value.

Significant investments:

Information on significant investments is presented in Note 2 under "Concentration of Credit Risk."

Rate of return:

For the year ended April 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.91 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability of the Village

The components of the net pension liability of the Village at April 30, 2018, are as follows:

Total pension liability	\$ 18,944,152
Plan fiduciary net position	14,461,950
Village's net pension liability	<u>\$ 4,482,202</u>
 Plan fiduciary net position as a percentage of the total pension liability	 76.34%

The total pension liability was determined by an actuarial valuation as of May 1, 2017, using the following methods and actuarial assumptions, applied to all periods included in the measurement and rolled forward to April 30, 2018:

Methods and Assumptions

Valuation date	May 1, 2017
Actuarial cost method	Entry Age Normal (Level Percentage)
Amortization method	Level Percentage of Payroll (Closed)
 Discount Rate used for the Total Pension Liability	 7.25%
Long-Term Expected Rate of Return on Plan Assets	7.25%
High Quality 20-Year Tax-Exempt G.O. Bond Rate (based on the Bond Buyer 20-Bond GO Index)	3.97%
Projected Individual Salary Increases	4.00% - 10.43%
Projected Increase in Total Payroll	3.50%
Consumer Price Index (Urban)	2.50%
Inflation Rate Included	2.50%
 Actuarial assumptions:	
Mortality Table	L&A 2016 Illinois Firefighters Mortality Rates
Retirement Rates	L&A 2016 Illinois Firefighters Retirement Rates Capped at age 65
Disability Rates	L&A 2016 Illinois Firefighters Disability Rates
Termination Rates	L&A 2016 Illinois Firefighters Termination Rates
Percent Married	80%

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Firefighters' Pension Fund (Continued)

Net Pension Liability of the Village (Continued)

The actuarial assumptions used in the April 30, 2018 valuation were based on the results of an actuarial assumption study for the period including various municipal fiscal years ending December 2009 – June 2015. The study was performed by Lauterbach and Amen LLP (L&A), which provides a variety of accounting and actuarial services to police and firefighter pension funds across the State of Illinois.

The assumptions were changed from the prior year. The assumed rate on the High Quality 20-year tax-exempt G.O. bond was changed from 3.82 to 3.97. The mortality assumption was updated to include mortality improvements based on the MP-2016 table. The rates are being applied on a fully-generational basis.

Discount rate:

The discount rate used to measure the total pension liability is 7.25 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Cash flow projections are used to determine the extent to which the Plan's future net position will be able to cover future benefit payments. To the extent future benefit payments are covered by the Plan's projected net position, the expected long-term rate of return on plan assets is used to determine the portion of the net pension liability associated with those payments. To the extent future benefit payments are not covered by the Plan's projected net position, the municipal bond rate is used to determine the portion of the net pension liability associated with those payments. The Plan's projected net position is expected to cover future benefit payments in full for the current members for the next 80 years. Therefore, the long-term expected rate of return on pension plan assets was applied only to those years and for the remaining years the municipal bond rate was used.

Changes in the Net Pension Liability:

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balances at May 1, 2016	\$ 17,779,793	\$ 13,420,024	\$ 4,359,769
Changes for the year:

Net Pension Liability of the Village (Continued)

Sensitivity of the net pension liability to changes in the discount rate:

The following presents the net pension liability of the Village as of the valuation date of April 30, 2018, calculated using the discount rate of 7.25 percent, as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate.

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
Village's net pension liability	\$ 7,333,073	\$ 4,482,202	\$ 2,167,603

The schedule of changes in net pension liability, total pension liability and related ratios and investment returns and the schedule of contributions are presented as RSI following the notes to the financial statements.

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions:

For the fiscal year ended April 30, 2018, the Village recognized pension expense of \$237,350. At April 30, 2018, the Village reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Deferred Amounts to be Recognized in Pension Expense in Future Periods		
Differences between expected and actual experience	\$ -	\$ 770,435
Changes of assumptions	485,546	55,950
Net difference between projected and actual earnings on pension plan investments	412,086	-
Total Deferred Amounts Related to Pensions	<u>\$ 897,632</u>	<u>\$ 826,385</u>

Village of South Holland, Illinois

Notes to Financial Statements

Note 6. Pension and Retirement Plan Commitments (Continued)

Firefighters' Pension Fund (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

	Net Deferred Outflows of Resources
Year ending April 30:	
2019	\$ 156,014
2020	156,012
2021	(59,118)
2022	(40,494)
2023	(49,918)
Thereafter	(91,249)
Total	<u>\$ 71,247</u>

The schedule of changes in net pension liability, total pension liability and related ratios and investment returns and the schedule of contributions are presented as Required Supplementary Information (RSI) following the notes to the financial statements.

Village of South Holland, Illinois

Notes to Financial Statements

Note 7. Postemployment Healthcare Plan

Plan Description. The Village provides employer paid retiree medical and dental insurance to current and future eligible retirees until the age of 65 or until their death (whichever is earlier). Dependents are provided access to coverage on a fully contributory basis. The Village provides employer paid insurance benefits to retirees above the age of 65 and their dependents if the retirement occurred before October 1, 1993. In addition, the Village provides employer-paid retiree life insurance to eligible retirees. The life insurance benefit is \$40,000 up to the age of 70 and \$20,000 for ages 70 and above. This is a single-employer plan. The Postemployment Healthcare Plan does not issue a publicly available financial report.

Funding Policy. The required contribution is based on projected pay-as-you-go financing requirements. Retirees receive coverage under the Village's postemployment healthcare plan with an employer contribution rate of 85 percent of the premiums for the coverage elected by the employee. For fiscal year 2018, the Village contributed \$511,828 to the plan.

Annual OPEB Cost and Net OPEB Obligation. The Village's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The most recent actuarial valuation date for the postemployment healthcare plan was May 1, 2016.

The following table shows the components of the Village's annual OPEB cost for the year ended April 30, 2018, the amount actually contributed to the plan, and changes in the Village's net OPEB obligation to the plan:

Annual required contribution	\$ 1,121,595
Interest on net OPEB obligation	249,219
Adjustment to annual requirement contribution	(411,486)
Annual OPEB cost	<u>959,328</u>
Contributions made	<u>511,828</u>
Increase in OPEB obligation	447,500
Net OPEB obligation beginning of year	8,307,287
Net OPEB obligation end of year	<u>\$ 8,754,787</u>

The Village's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2018 and the two preceding years were as follows:

Trend Information

Fiscal Year Ended	Annual OPEB Cost	Percentage of OPEB Cost Contributed	Net OPEB Obligation
4/30/2018	\$ 959,328	53%	\$ 8,754,787
4/30/2017	969,621	46%	8,307,287
4/30/2016	972,206	55%	7,780,294

Note 7. Postemployment Healthcare Plan (Continued)

Funded Status and Funding Progress. As of May 1, 2016, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for benefits was \$10,590,347 and the actuarial value of assets was \$0, resulting in a UAAL of \$10,590,347. The covered payroll was \$9,624,322 and UAAL to the covered payroll was 110 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about the future employment, mortality, and the healthcare cost trend. Amounts determined reporting the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projected Unit Credit – Under this cost method, the costs attributable to past service and the current years' service are determined by prorating overall years of service the benefits expected to be paid from the plan. The normal cost for any year is determined equal to the present value of the current year's portion of the employer's expected postretirement medical benefit. The current year's portion is equal to the expected postretirement medical benefit divided by the total credited service at the anticipated retirement date. The accrued liability is determined equal to the present value of the past year's portion of the employee's expected postretirement medical benefit. The past year's portion is equal to the expected postretirement medical benefit times the ratio of the participant's credited service to the total credited service at the anticipated retirement date. The sum of these values for all employees determines the normal cost and the accrued liability for the plan.

In the May 1, 2016 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 3 percent investment rate of return (net of administrative expenses), which is the expected long-term investment returns on the employer's own investments calculated based on the funded level of the plan at the valuation date and an annual healthcare cost trend rate of 8 percent initially, reduced by decrements to an ultimate rate of 5 percent after 9 years. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at May 1, 2016 was 30 years.

Note 8. Risk Management

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction to assets; errors and omissions; injuries to employees; and natural disasters.

The Village is self-insured up to \$300,000 of each worker's compensation claim incident with an overall retention of \$950,000 per claim year. Property and casualty is a standard insurance component with various deductible amounts starting at \$5,000 per incident.

Village of South Holland, Illinois

Notes to Financial Statements

Note 8. Risk Management (Continued)

All incurred and not reported claims have been estimated based on historical experience and have been accrued. There has been no significant reduction in insurance coverage from the prior year. The Village's settlements did not exceed its insurance coverage during the past three years.

Changes in the balances of claims liabilities are as follows:

Unpaid Claims at April 30, 2016	\$ 765,492
Provision for claims	(140,068)
Claims paid	<u>(251,853)</u>
Unpaid Claims at April 30, 2017	373,571
Provision for claims	533,275
Claims paid	<u>(269,888)</u>
Unpaid Claims at April 30, 2018	<u><u>\$ 636,958</u></u>

Note 9. Tax Abatements and Commitments

The Village is committed to pay several developers within tax incremental financing (TIF) districts after the developers have completed certain project improvements and satisfied other conditions. These conditions vary from developer to developer; however, in all cases these amounts are only due to be paid from future revenues which will arise from the new development within the new districts.

The Village has an agreement with a local retail developer (the Developer) in the community to provide possible future economic assistance. The amended agreement executed May 16, 2016 between the Village and the Developer will expire on the earlier of when the Village has paid sale tax refunds not to exceed \$285,000. As of April 30, 2018, a total of \$146,741 of sales tax refunds was provided by the Village to the Developer under this revised incentive agreement.

Cook County Economic Incentives

The Cook County Assessor's Office, in conjunction with municipalities located within Cook County and within the Village's boundaries, encourage certain industrial and commercial development by offering real estate tax incentive programs (such as class 6a, 6b, 7 and 8) for the development of new industrial facilities, the rehabilitation of existing structures, and industrial utilization of abandoned buildings or areas experiencing severe stagnation. These programs offer qualified properties a reduced equalized assessed valuation for up to 12 years. The Village deems these real estate tax incentives as vital economic development tools to retain existing businesses as well as encourage new construction considering the proximity of the Village to Will County and the State of Indiana which offer lower property tax rates. The Village estimates its portion of annual abatement of property taxes to various local companies under these development incentives approximates \$1,450,000.

The Village also has construction commitments of \$1,690,689 as of April 30, 2018.

Village of South Holland, Illinois

Notes to Financial Statements

Note 10. Other Financial Disclosures (FFS Level Only)

(a) Due To/From Other Funds

Individual interfund balances for the Village at April 30, 2018, are as follows:

Fund	Due from Other Funds
Major Governmental Fund:	
Park Fund,	
Nonmajor Governmental Fund	\$ 290,294
Major Enterprise Fund:	
Water Fund,	
Nonmajor Governmental Fund	<u>157,630</u>
Total	<u>\$ 447,924</u>

Fund	Due to Other Funds
Nonmajor Governmental Fund:	
Park	\$ 290,294
Major Enterprise Fund:	
Water	<u>157,630</u>
Total	<u>\$ 447,924</u>

Interfund receivables and payables are short-term in nature based on expected payments and relate to expenditures paid by a fund that were intended to be paid by another fund.

Village of South Holland, Illinois

Notes to Financial Statements

Note 10. Other Financial Disclosures (FFS Level Only) (Continued)

(b) Transfer In/Out

The interfund transfers in and out for the year ended April 30, 2018, are as follows:

Fund	Other Funds
Nonmajor Governmental Funds:	
Verterans Park Construction Fund	
General Fund	\$ 50,000
Corporate Purpose Series 1999 Debt Service Fund	
General Fund	65,000
Corporate Purpose Series 2005 Debt Service Fund	
General Fund	55,000
Route 6 TIF, Debt Service Fund	
Route 6 TIF, Capital Projects Fund	600,000
Route 6 TIF, Capital Projects Fund	
Downtown TIF, Capital Projects Fund	100,000
Downtown TIF, Debt Service Fund	
Downtown TIF, Capital Projects Fund	500,000
IZD Zone A TIF, Capital Projects Fund	
Gateway East TIF, Capital Projects Fund	125,000
Total	<u>\$ 1,495,000</u>
Fund	Transfers To Other Funds
Major Governmental Fund	
General Fund	
Veteran Park Construction Fund	\$ 50,000
Corporate Purpose Series 1999 Debt Service Fund	65,000
Corporate Purpose Series 2005 Debt Service Fund	55,000
Downtown TIF, Capital Projects Fund	
Downtown TIF, Debt Service Fund	500,000
Route 6 TIF, Capital Projects Fund	100,000
Nonmajor Governmental Funds:	
Route 6 TIF, Capital Projects Fund	
Route 6 TIF, Debt Service Fund	600,000
Gateway East TIF, Capital Projects Fund	
IZD Zone A TIF, Capital Projects Fund	125,000
Total	<u>\$ 1,495,000</u>

Transfers are used to (a) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; (b) move receipts restricted to debt service from the fund collecting the receipts to the debt service fund; and (c) use unrestricted revenue collections in the General Fund to finance various programs accounted for in accordance with budgetary authorizations.

Village of South Holland, Illinois

Notes to Financial Statements

Note 10. Other Financial Disclosures (FFS Level Only) (Continued)

(c) Deficit Fund Balances

The following funds reported deficits in fund balance as of April 30, 2018:

	<u>Deficit</u>
Major Governmental:	
Special Revenue, Park Fund	\$ 133,943
Nonmajor Governmental:	
Special Revenue, Sewer Fund	155,552
Capital Project, Construction Fund	591,591

These deficit fund balances are expected to be funded by future operating revenues and transfers from other funds.

Note 11. New Governmental Accounting Standards

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (Employer)*, will be effective for the Village beginning with its year ended April 30, 2019. This statement outlines accounting and financial reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments.

GASB Statement No. 83, *Certain Asset Retirement Obligations*, will be effective for the Village beginning with its year ended April 30, 2020. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

GASB Statement No. 84, *Fiduciary Activities*, will be effective for the Village beginning with its year ended April 30, 2020. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

GASB Statement No. 85, *Omnibus 2017*, will be effective for the Village beginning with its year ended April 30, 2019. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits).

Village of South Holland, Illinois

Notes to Financial Statements

Note 11. New Governmental Accounting Standards (continued)

GASB Statement No. 86, *Certain Debt Extinguishment Issues*, will be effective for the Village with its year ending April 30, 2019. The objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources (resources other than the proceeds of refunding debt) are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to the financial statements for debt that is defeased in substance.

GASB Statement No. 87, *Leases*, will be effective for the Village with its year ended April 30, 2021. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

GASB Statement No. 88, *Certain Disclosures Related to Debt Including Direct Borrowing Placements*, will be effective for the Village beginning with its year ended April 30, 2020. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established.

GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, will be effective for the Village beginning with its year ended April 30, 2021. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

GASB Statement 90, *Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61*, will be effective for the Village beginning with its year ended April 30, 2020. This Statement improves financial reporting by providing users of financial statements with essential information related to presentation of majority equity interests in legally separate organizations that previously were reported inconsistently. In addition, requiring reporting of information about component units if the government acquires a 100 percent equity interest provides information about the cost of services to be provided by the component unit in relation to the consideration provided to acquire the component unit.

Management has not yet completed its evaluation of the impact, if any, of the provisions of these standards on its financial statements; however, the impact of GASB Statement No. 75 will likely be material to the financial statements of the Village.

Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2017 Contribution Rate*

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2017 Contribution Rates:

Actuarial Cost Method: Aggregate entry age = normal
 Amortization Method: Level percentage of payroll, closed
 Remaining Amortization Period: 27-year closed period
 Asset Valuation Method: 5-year smoothed market; 20% corridor
 Wage Growth: 3.50%
 Price Inflation: 2.75%, approximate; No explicit price inflation assumption is used in this valuation.
 Salary Increases: 3.75% to 14.50%, including inflation
 Investment Rate of Return: 7.50%
 Retirement Age: Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.
 Mortality: IMRF specific mortality table was used with generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.

Other Information:

Notes: There were no benefit changes during the year.

*Based on Valuation Assumptions used in the December 31, 2016 actuarial valuation.

This schedule is presented to illustrate the requirement to show information for 10 years; however, until a full 10-year trend is compiled, information is presented for those years for which information is available.

Village of South Holland, Illinois

Notes to Required Supplementary Information

Note 1. Budgetary Basis of Accounting

The General Fund budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America.

Note 2. Stewardship, Compliance and Accountability

(a) Budgetary Information

The Village follows these procedures in establishing the appropriation data reflected in the financial statements:

1. The Village Treasurer submits to the Village Board of Trustees a proposed operating appropriation ordinance (budget) for the fiscal year commencing the following May 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted by the Village to obtain taxpayer comments.
3. Subsequently, the appropriation ordinance is legally enacted through passage of an ordinance.
4. Formal budgetary integration is employed as a management control device during the year for the general, debt service and certain special revenue funds. While formal budgetary integration is not required to be employed for the debt service funds because effective budgetary control can alternatively be achieved through general obligation bond indenture provisions, the Village has budgeted its debt service funds. Budgets for TIF Capital Project Funds (included within both major and aggregate nonmajor funds), Veterans Park Construction Fund (included within aggregate nonmajor funds), and police seizure expenditures in the General Fund are not formally adopted as part of the Village's annual appropriation.
5. Appropriations for the general, debt service and certain special revenue funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
6. Budgetary authority lapses at the year-end.
7. State law requires that "expenditures be made in conformity with appropriation/budget." As under the Budget Act, transfers between line items and departments may be made by administrative action. Amounts to be transferred between funds would require Village Board approval. The level of legal control is generally considered to be the fund budget in total.
8. Appropriated amounts are as originally adopted.

Village of South Holland, Illinois

Notes to Required Supplementary Information

Note 3. Pension Contributions

The Schedule of Contributions shows the difference between the actual contributions and the actuarially determined contribution's (ADC). The actuarial valuation and assumptions utilized to measure the ADC differ from those disclosed in Note 6 of the financial statements.

The following methods and assumptions were utilized to measure the ADC for each applicable pension plan.

Police Pension Plan

Methods and Assumptions

Valuation date	April 30, 2017
Actuarial cost method	Entry Age Normal
Actuarial Value of Assets	5-Year Smooth Market Value
Amortization method	Level Percentage of Payroll Closed
Remaining Amortization Period	22 years
Investment rate of return	7.25%
Projected Individual Salary Increases	4.00% - 10.47%
Projected Increase in Total Payroll	3.50%
Inflation Rate Included	2.50%
Consumer Price Index (Urban)	2.50%
Mortality Table	L&A 2016 Illinois Police Mortality Rates

Firefighters' Pension Plan

Methods and Assumptions

Valuation date	April 30, 2017
Actuarial cost method	Entry Age Normal (Level Percentage)
Actuarial Value of Assets	5-Year Smooth Market Value
Amortization method	Level Percentage of Payroll Closed
Remaining Amortization Period	22 years
Investment rate of return	7.25%
Projected Individual Salary Increases	4.00% - 10.43%
Projected Increase in Total Payroll	3.50%
Inflation Rate Included	2.50%
Consumer Price Index (Urban)	2.50%
Mortality Table	L&A 2016 Illinois Firefighters Mortality Rates
